

STUDENT DESK SHIELD

STUDENT DESK SHIELD - CLEAR POLYCARBONATE

SLOT AND GROOVE SYSTEM ALLOWS SIDES TO QUICKLY SLIDE INTO MAIN FRONT PANEL

BUILT IN FOLD OUT TAB. THE TAB CAN BE ATTACHED TO THE DESK SURFACE WITH DOUBLE SIDED TAPE OR SCREWS.

Shield made of optically clear strong $\frac{1}{8}$ " polycarbonate.

Polycarbonate is highly durable and more suitable for daily use compared to acrylic "plexi".

3 Piece system ships flat, quickly assembles, and can be secured to the desk with tabs.

Upstaging's student desk shields are available to help with student social distancing.

The student desk shield offers an affordable protective barrier.

Our stock product size is shown here. Additionally, we can create custom sizes to meet your needs with quick turnaround.

Strong shatterproof polycarbonate is an excellent value compared to acrylic that may shatter and possibly not meet local fire marshal approval.

Many imported shields are acrylic. 100% Made in the USA.

Quantity discounts available.

To secure the shield to a desk we designed our product with tabs on the side panels that fold out and can be secured to the desk with screws or double sided tape.

Recommended Tape (sold separately)
